**5 Day FDP
On
“Intellectual Property Rights”
January 18-22, 2022**

About the FDP:

Intellectual property (IP) protection has been a significant factor in deciphering translation of academic research beyond the boundaries of tertiary educational institutions such as universities. Industries have always been on top of this; however academic world is playing a serious catch-up to invest in IP's. This FDP is aimed at addressing this 'missing middle' awareness of IP which would facilitate translator research.

Objective of the FDP

This Five days FDP on IPR aims at providing fundamental background on Intellectual properties which include Patents, Copyrights, Designs, Trademark, GI etc. The participants would understand how to make use of the technology transfer offices (IPR Cell) within the university, to protect and commercialize IP generated through research. IP databases are critical resources which are generally not utilized by academic researchers. This FDP aims in bridging this gap and providing a hands-on training how to search patents using popular IP databases such as WIPO etc.

Outcome of the FDP:

Participants got information on their own rights and responsibilities regarding IP generated through their own research. Experts discussed on various technology commercialization options available for innovations from academic researchers.

Proposal for jointly organizing events on Intellectual Property Rights and Patent Filing Process-reg

IPR Cell, MeitY <ipr@meity.gov.in>

Sep 23, 2021, 3:10 PM

to me, ajai, Umesh, Parimal, pooja

Dear Sir,

Sorry for the delay in replying.

Consequent to the visit of Sh. Parimal Khade and his deliberations for working out a joint initiative for collaboration between CoE-IP and IPR Cell of SKIT, following is proposed.

1) Launching of Certification courses on IPR: CoE-IP is ready for this initiative however for seeking necessary permissions from the organisation we need to have a formal communication from your side giving the details. If any fees is being charged the same has to be mentioned very clearly.

2) One Week Workshop on Intellectual Property Rights and Patent Filing Process: Instead of a continuous week long event we propose conducting workshops every week. Some of the sessions can be addressed by us while the rest can be from external experts. The agenda can be restructured accordingly.

Regards

AK Roy

What is Prior art Search

It is a dedicated search which maps the present invention for its patentability in terms of novelty, inventiveness and Industrial applicability.

- ✓ Prior art search is technical or scientific information that exists before your invention.
- ✓ Prior Art Search is crucial to find out the patentability before investing any serious money in filing patent application, developing prototypes or going to the investors.
