

Eco Friends Club

ESTD: 2007

Eco-friendly literally means earth-friendly or not harmful to the environment. This term most commonly refers to products that contribute to green living or practices that help conserve resources like water and energy. EFC club mainly engage club members in eco-friendly habits or practices by being more conscious of how we use resources.

OUR VISION

To play a pivotal role in the metamorphosis of the earth from moribund planet to a greener one

OUR MISSION

To herald the essential coordination and harmony between environment, society and economy by endowing the 3 C's with scientific and technical approach.

Club Activities held in the past years
