Name of the event: Cemento Magic

Date of the event: 12/01/2026

Venue of the event: SKIT, Jaipur

Glimpses of the event

The event “**CEMENTO MAGIC**” resulted in active participation and enthusiastic involvement of the first-year Civil Engineering students. The students gained hands-on exposure to the basic concept of casting and molding using cement paste. They understood the practical behavior of cement as a binding material and learned the importance of teamwork, coordination, and time management while performing technical activities.

The event also successfully created awareness about the Indian Concrete Institute (ICI) membership among the students. They came to know about its benefits such as industrial visits, expert lectures, seminars, workshops, and professional networking opportunities. Overall, the event enhanced the students’ interest in the Civil Engineering branch and motivated them to participate in future technical activities.
