- The debate promoted knowledge about green practices, energy efficiency, and sustainable design approaches.
- Judges praised the confidence, clarity, and depth of understanding shown by participants.
- The event improved participants' communication, teamwork, and critical thinking skills.

### **Outcome of the Event:**

- The Debate Competition successfully provided a platform for students to exchange diverse ideas and opinions on sustainability. It deepened their understanding of environmental issues and encouraged them to think practically about sustainable solutions in civil engineering. The event achieved its goal of inspiring students to be responsible and environmentally conscious engineers.
